September 8, 2011

Dear Parents,

The flash flooding last night caused numerous roads to be closed early this morning. On snow days in the winter, I normally have discussions with other Superintendents and the Transportation Department as early as 3:00 a.m. or 4:00 a.m.

Transportation did not become aware of the flooded roads until after 5:00 a.m. and East Amwell was not informed that we would have to delay until after that time.

We initialized our Alert System as early as we could; however, some of the telephone numbers for new students might not have been picked up in the system this early in the school year. A message was sent via email and our telephone system. I apologize for any inconvenience that you may have incurred, but we try our best considering the circumstances.

Please be aware that due to power outages, flooding, snow, and other emergencies, emergency closings may occur from time to time and some of our contact system may not be operational. I have attached a sheet explaining informational methods that we use. Thank you for your understanding.

Sincerely,

Edward F. Stoloski
Superintendent
