Cartridges for Kids[®] FUN FACTS

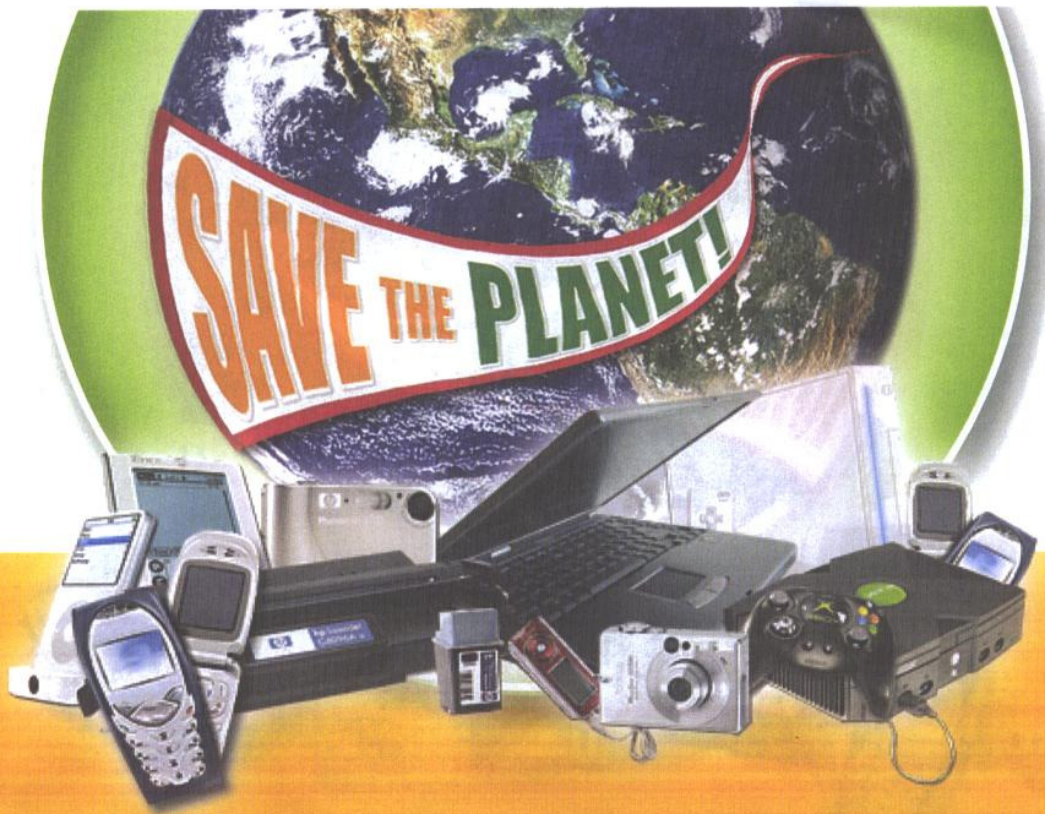

- Every year, 300 million cartridges end up in landfills worldwide.
- Almost eight cartridges are thrown away in the U.S. every second. That is almost 700,000 cartridges per day.
- It takes almost 3.5 quarts of oil to produce one laser cartridge. That is almost one gallon of ice cream!!!
- A half a gallon of oil is saved each time a laser cartridge is remanufactured.
- A cartridge takes at least 1,000 years to decompose. That means a cartridge thrown away today will not decompose until you have Great, Great, Great, Great, Great, Great, Great, Great, Great, Great... Grandchildren!!! That's a really long time!!!
- On average, Americans purchase a new cell phone every 18 months.

**Remind children to ask
their parents and friends to donate:**

- PDAs
- iPods
- Cell Phones
- Video Games
- Digital Cameras
- Inkjet Cartridges
- Laser Cartridges
- Laptops
- Video Games Consoles
- DVD Movies

www.cartridgesforkids.com
